

These are the Shoots – by Jenny Dodge

Look! The seed has grown a root
Now it has a thin white shoot.

In the soil the root will stay,
But the shoot is on its way....

Up and up,
 And up and up,
 And up and up,
 And up and up!

Reaching out towards the sun.
Happy birthday plant have fun!

You can sing this poem as well to *Twinkle Twinkle Little Star*, with a break in the middle where you just sing upwards for an octave to indicate a shoot growing.
